Background and Program Specifications

Given the increasingly global nature of our society, the need for Americans to speak a variety of languages other than English is growing daily. Many districts in rural areas, as well as some in urban and suburban areas, have experienced budget cuts that prevent them from offering adequate instruction in foreign language. While foreign language is a required instructional component of the comprehensive curriculum offered at the high school level under Part 1 of the rules of the Illinois State Board of Education (23 Illinois Administrative Code 1.440(a)(5); <https://www.isbe.net/Documents/ONEARK.pdf>), beginning language study at the high school level does not provide much time for students to learn to communicate effectively in a second language. To fully master a foreign language, students require carefully planned and well-sequenced learning opportunities that provide practice in using the language beginning at a younger age. A longer sequence of study would provide more opportunity for students to attain the ability and confidence necessary to interact fluently with native speakers in oral and written contexts. Unfortunately, budgetary restrictions make the implementation of such a curriculum in elementary grade levels rare.

The benefits of arts education are well-documented and have been acknowledged by the State of Illinois. Section 27-1 of the School Code (105 ILCS 5/27-1) identifies fine arts as one of the fundamental areas of learning and requires all school districts to “give priority in the allocation of resources, including funds, time allocation, personnel, and facilities, to fulfilling the primary purpose of schooling.” Districts are required to establish learning objectives consistent with the Illinois Learning Standards for Fine Arts (see <https://www.isbe.net/Pages/Fine-Arts.aspx>) and to develop appropriate testing and assessment systems to determine the degree to which students are achieving the objectives. Also, 23 Illinois Administrative Code 1.430 and 1.440 require that each school district offers in all elementary and secondary schools a comprehensive curriculum that includes fine arts (see <https://www.isbe.net/Documents/ONEARK.pdf>).

Many schools and districts, however, have had to neglect some instructional areas due to budgetary concerns or increased concentration on English language arts, mathematics, and/or the sciences, as required under the No Child Left Behind Act of 2001 (NCLB). In other cases, arts programs, in particular, may have languished or been incorporated into classroom activities, rather than being offered as distinct courses taught by staff specifically licensed to teach music or visual arts.

Section 2-3.65a of the School Code (105 ILCS 5/2-3.65a) authorizes the Illinois State Board of Education (ISBE) and the Illinois Arts Council Agency (IACA) to provide grants to school districts and other eligible applicants for the purpose of supporting arts and foreign language education in schools, with an emphasis on ensuring that these areas become part of the school’s core curriculum. The purpose of this RFP is to solicit proposals from eligible applicants that are seeking resources to plan for strengthening or expanding instruction in the arts or expanding their foreign language instruction.

Foreign language instruction focuses on the acquisition of another language beyond English. The arts include visual arts, music, theatre, media arts, and dance. The goal of each planning grant will be to assist applicants with measuring the effectiveness of their existing arts education or foreign language program, identifying areas for improvement, and establishing a realistic timeline and budget for improving arts education or foreign language instruction. As part of the planning process, grant recipients must identify the necessary components of an instructional program to be added or enhanced and the human, financial, and other resources that will be necessary in order to incorporate these

components into the affected schools' curriculum and sustain them when State funding is no longer available.

Planning: Eligible applicants should consider the steps necessary to implement innovative, curriculum-based arts education or foreign language programs that are presented in a sequential and developmentally appropriate manner, add higher-level learning opportunities, and are aligned with the Illinois Learning Standards and other district learning goals. See <https://www.isbe.net/Pages/Fine-Arts.aspx> or <https://www.isbe.net/Pages/Foreign-Languages.aspx> for further information about the standards.

Each applicant must propose a comprehensive, district-based planning process relating either to the arts or foreign language. The planning process must include not only school administrators, teachers, and other relevant staff members, but also parents and community-based organizations with an interest in fostering the availability of arts or foreign language programming, as applicable. In the case of proposals for high school programs, students should be included in the planning process.

The proposed planning process may include the following steps:

1. Information gathering
 - A. Determine the current status of the program. This phase could include but is not limited to curriculum, instruction, assessment, personnel, funding, other resources and facilities.
 - B. Conduct research about best practices, available resources, model programs, etc.
2. Information analysis
 - A. Identify strengths and weaknesses of the current program based on the analysis conducted in Step 1A.
 - B. Develop strategies to enhance the areas that need improvement.
3. Action plan development
 - A. Write goals and objectives from the development of strategies conducted in Step 2B.
 - B. Create an action plan to meet the objectives. The plan should include goals and objectives, implementation tasks, timeline, responsible personnel, needed resources, estimated cost, and sources of funding. The plan should reflect how the grantee intends to allocate local resources and secure other external support in order to meet those needs in a program that can be sustained over time.

Reporting: In addition to quarterly reports, each grantee will be required to submit a final performance report including an outline of the activities completed with grant funds and an action plan that identifies programmatic goals and objectives developed through an analysis of the applicant's curricular needs and that describes how the resulting program will be implemented, including the grantee's approach to allocating local resources and securing other external support in order to meet those needs so that the program can be sustained over time. This report will be due January 15, 2019.
